ADVERTISEMENTS.

ARCHITECTS', BUILDERS', and GENERAL FIRE and LIFE INSURANCE COMPANY, 69, Lombard-street, London

CHAIRMAN, SYDNEY SMIRKE, Esq., A.R.A.

TRUSTEES.

T. L. Donaldson, Esq.	A. Salvin, Esq., F.S.A.
S. Grimsdell, Esq.	O. Smith, Esq., F.S.A.

The rates for both Fire and Life Insurances are as low as can with safety be taken. Those for Life Insurance may be paid either yearly, half-yearly, or quarterly; one half the annual premium may be left unpaid for seven years, or one-third to the end of life. Thus large sums may be insured at the smallest present outlay.

Prospectuses, forms of proposals, &c., may be had at the Office 69, Lombard street, or of the agents.

PATENT WROUGHT NAILS.—These Nails are submitted to the notice of Builders, Contractors, and Ship-builders, as being superior to any others, and cheaper. They have the toughness of the best hand-made nails, with far greater uniformity of make. The flat pointed iron nails are particularly recommended wherever oak or other hard wood is used; being perfectly chisel-pointed, they require no boring, and will drive into the hardest wood without splitting it, and their heads being very strong do not fly off. The patent wrought nails may be had of all ironmongers, and an ample stock of them is kept at the warehouses of the agents, HIGGS and GEORGE, Wholesale Ironmongers, 178, Borough, London.

CHUBBS' LOCKS, FIRE-PROOF SAFES, AND CASH BOXES

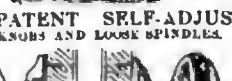
CHUBBS' PATENT DETECTOR LOCKS give perfect security from false keys and picklocks, and also detect any attempt to open them. They are made of all sizes, and for every purpose to which locks are applied, and are strong, secure, simple, and durable.

CHUBBS' PATENT LATCH, for front doors, counting-house doors, &c., is simple in construction, low in price, and quite secure. The latch is particularly neat and portable.

CHUBBS' PATENT FIRE-PROOF SAFES, BOOK-CASES, CHESTS, &c., made entirely of strong wrought-iron, so as effectually to resist the falling of brick-work, timber, &c., in case of fire, and are also perfectly secure from the attacks of the most skilful burglars.

CHUBBS' CASH and DEED BOXES, fitted with the Detector Locks.

CHUBB and SON, 57, St. Paul's Churchyard, London.



PITT'S PATENT SELF-ADJUSTING DOOR KNOBS AND LOOSE SPINDLES.

HAST and SONS beg to invite the attention of architects, builders, and others, to their Door Furniture, mounted for PITT'S PATENTED SPINDLES. The knobs are stronger, more durable, and more elegant in form, than those in ordinary use, as the spindles, being loose, do not require the objectionable side screw. They are more readily fixed, are suitable for every description of lock now in use and, as they adjust themselves to doors of different thicknesses, without alteration, are particularly adapted for the country or for exportation.

In addition to an extensive stock of door furniture in china, crystal, amber, and opal glass, buffalo horn, ivory, ebony, brass, &c., en suite, with finger-plates, bell-pulls, and levers, new patterns of original design are constantly being added, and an order either to sketch or pattern supplied very promptly. A simple one, for example, in three days, and a more elaborate one in less than a week.—May be obtained through any ironmonger, or direct from the proprietors and sole manufacturers, HART and SONS Wholesale Ironmongers, 33, 34, 35, Wych-street, Strand, London.

A list of prices sent on application.

THE NILE—RE-OPENING at the EGYPTIAN HALL, Piccadilly, with NEW TABLEAUX.—The new and splendid MOVING PANORAMA of the NILE, showing all the stupendous works of antiquity on its banks, from Cairo, the capital of Egypt, to the second cataract in Nubia. Painted by Henry Warren and James Fahey, from drawings made by Joseph Bonomi, during many years' residence there.—Morning, Three o'clock; Evening, Eight o'clock.—Stalls, 3s.; Pit, 2s.; Gallery, 1s.

CALIFORNIA.—The undersigned, having been informed that shipments of GALVANIZED METAL, both in unwrought sizes and formed for houses, are still going forward to California, again GIVE NOTICE that they ALONE have the right of importing, selling, or using galvanized metal, of any description, in the United States, including California, and that any parties infringing their rights, by importations or selling galvanized metal in California, will subject themselves to the stoppage of their goods, and to heavy penalties, which have been already enforced in several instances.—Any parties wishing to ship either galvanized metal or houses to California, will get every information on application to the undersigned.

MUKEWOOD and ROGERS, Steel yard Wharf, Upper Thames-street, London.

THE GALVANIZED IRON COMPANY, 3a, 5, Mansion house place.

Call the particular attention of Architects, Builders and others, to their patent process of galvanizing, or coating Iron with PURE ZINC, which, from its action being chemically true, effectually and PERMANENTLY prevents RUST. The process is applicable to all sizes of iron work whether cast or wrought; it can be used for building purposes—such as RAILS, gutters, girders, floors, WATER or GAS PIPES, railings, window sashes and casks, blinds, skylight frames, chimney cowls, cisterns, screws, nails, locks, keys, chains, wire rounds, &c., &c., &c. The Company undertake to supply GALVANIZED IRON, or to GALVANIZE every description of iron work, in any quantity required.—Particulars and prices at the Offices of the Company, 3, Mansion-house place, London (entrance Bishop's Court), Billwell, Poplar.

R. VINCENT, Secretary.

N.B. This Company's patent process is applied to the roofs of the New Houses of Parliament, the sheds in the dock yards at Woolwich, Portsmouth, and Devonport, the Waterloo Station belonging to the London and North-Western Railway Company at Liverpool, and numerous other railway stations, &c., &c., with the most perfect success.

FLEXIBLE INDIA-RUBBER PIPES AND TUBING, For Railway Companies, Brewers, Distillers, Fire Engines, Gas Companies, Gardening and Agricultural purposes, &c.—J. L. HANCOCK'S patent VULCANIZED INDIA-RUBBER HOSE-PIPES are made to stand hot liquor, and acids without injury—do not become hard or stiff in any temperature, but are always perfectly flexible; and as they require no application of oil or dressing, are particularly well adapted for Fire Engines, Pumps, Gas, Beer Engines, Gardens, Liquid Manure, and all purposes where a perfectly flexible pipe is required. Made all sizes, from ¼ inch bore upwards, and of any length to order. Vulcanized India rubber garden hose fitted with screw-caps, copper branch and brass complete, ready to be attached to pumps, water butts, or cisterns. Sole manufacturer, JAMES LYNE HANCOCK, Goswell-mews, Goswell-road, London.

N.B. Vulcanized India-rubber washers of all sizes for joints of hot-water and steam pipes, and vulcanized sheet rubber any thickness for all kinds of joints, and other purposes.

PROTECTION from FIRE, and GREAT ECONOMY in BUILDING.—A pamphlet, descriptive of the method by which both these important objects are secured, may be obtained on application to Messrs. POTT and BARRETT, 48, Leicester-square.

THE MODERATOR STOVE GRATE is confidently recommended for the purity of its heated air, as the most delicate fumes will not be affected by it; great economy of fuel, from 25 to 33 per cent.; no dust in sweeping rooms, and perfect ventilation, with most cheerful appearance. May be seen in daily use at the inventors and sole manufacturers, METHLEYS, 31, Frith-street, Soho. Price 8l. for third size.

WARMING by HOT WATER.—J. WEEKS and Co., King's-road, Chelsea, Economical Hot-WATER APPARATUS MANUFACTURERS, for heating buildings of every description to which heat is applicable or desirable. It is particularly adapted for warming professional offices and entrance halls within a single room to any number of rooms, also churches, warehouses, horticultural buildings, &c. The boilers now used by J. Weeks and Co. consume but a small quantity of fuel, keep up a regular temperature, and only require attendance once in twenty-four hours. To be seen in extensive operation at their Manufactory and Show Rooms, King's-road, Chelsea. References may be had to many patent, where their apparatuses have been fixed for many years.
